[1] The IDT Energy SmartFlex rate is the per unit rate that will apply to the first monthly billing cycle only. Thereafter, IDT's standard variable rates will apply. Rates are only available to new IDT Energy customers enrolling between 7/1/26 & 7/31/26 unless otherwise specified. This is a variable rate product. The rate for the electricity &/or natural gas supplied will fluctuate at IDT's discretion based on numerous factors as explained in the Terms & Conditions. IDT may change the rate without notice & the rate may be higher or lower than the utility's rate in any particular month. There is no cap on the rate. Savings are neither implied nor guaranteed. [2] To take advantage of the "IDT SmartBudget Locked Rate" program above customers must enroll between 7/1/26 & 7/31/26. This promotion is not available to current IDT Energy customers unless otherwise specified. As an IDT SmartBudget Rate Guarantee customer, your electricity &/or natural gas supply rate will be guaranteed to remain at the respective rates above per kWh/therm for the initial number of monthly billing cycles indicated. [3] The Renewable/Green Electricity supply product is matched 100% with renewable energy certificates (RECs). If you choose IDT's Carbon Offset Gas option, IDT will purchase carbon offsets and/or carbon credits to match 100% of your natural gas consumption. [4] There are no termination fees applicable to SmartFlex Variable rate plans. SmartBudget fixed electricity &/or natural gas supply rates will be guaranteed to remain locked for the rate per kWh/therm mentioned above for the monthly billing cycles indicated. There are no termination fees in IL, IN, DC, OH, NJ, and PA if customer chooses to terminate service prior to the expiration of the initial term, customer will be obligated to pay an early termination fee of \$10.00 for each monthly billing cycle, or portion thereof, remaining in the Initial Term. [5] IDT is not the same entity as your electric delivery company. You are not required to enroll with IDT. Through 9/30/26, the ComEd electric supply price to compare is \$0.10399 per kWh. Ameren is \$0.11326. The electric supply price to compare does not include the purchased electricity adjustment factor. For more info go to the Illinois Commerce Commission's fee website at www.icc.ilinois.gov/ag/consumereducation.aspx. Beginning on 6/1/26 the utility supply costs rates per therm are \$0.36 (Nicor), \$0.3676 (Peoples) and \$0.4237 (North Shore). For more info go to the IL Commerce Commission's fee website at www.icc.ilinois.gov/ag/consumereducation.aspx. [6] In select OH & NJ areas & ComEd IL, your rates for Traditional Variable, Green Variable, Traditional Fixed & Green Fixed electricity supply will initially be set at the rates above per kWh. A Daily Service Fee of up to \$0.249 will apply to Traditional Variable Electric Supply, up to \$0.349 per day for Traditional Fixed Electricity Supply, & up to \$0.549 per day for Green Variable & Green Fixed Supply. In Ameren IL, there is a monthly service fee of up to \$6.99 on Traditional Variable Electric Supply, up to \$16.99 per month on Green Variable, Traditional Fixed & Green Fixed Electric Supply. In PSEG NJ & NICOR IL, a Daily Service Fee of up to \$0.249 will apply to Traditional Variable Gas Supply, up to \$0.349 per day for Traditional Fixed Gas Supply, & up to \$0.549 per day for Green Variable & Green Fixed Gas Supply. In Northshore & PeoplesGas IL, a monthly fee of up to \$6.99 will apply for Traditional Variable Gas Supply up to \$9.99 for Traditional Fixed Gas Supply, & up to \$16.99 for Green Variable & Green Fixed Gas Supply. Your supply service will start when the utility company approves your IDT Energy enrollment, which should be in approximately 15 - 45 days, depending on your next meter reading & it will continue on a month-to-month basis until either party terminates it. [*] IDT is not your local utility company. We are an independent energy supplier. You are not required to switch to an independent supplier.

[7] Average prices charged for variable rate Standard & Renewable electric supply in 2024 & 2025 for consumption of 500, 1,000 & 2,000 kWh. [8] Total cost of Standard & Renewable electric supply is what you would expect to pay for electricity consumption of 500, 1,000 & 2,000 kWh at the fixed prices above.
