Agreement to Sell and Purchase Energy. This is an agreement between IDT Energy, INC. ("IDTE"), an independent energy services company, and the undersigned customer ("Customer") under which Customer shall initiate natural gas and/or electricity service and enroll with IDTE (the "Agreement"). Subject to the terms and conditions of this agreement, IDTE agrees to sell and deliver, and Customer agrees to purchase and accept the quantity of natural gas and/or electricity, as estimated by IDTE, necessary to meet Customer's requirements based upon consumption data obtained by IDTE or the delivery schedule of the local Distribution Company (the "LDC"). IDTE is not affiliated with and does not represent the LDC. The amount of natural gas and/or electricity supplied under this Agreement is subject to change based upon data reflecting Customer's consumption obtained by IDTE or the LDC's delivery schedule. The LDC will continue to deliver the natural gas and/or electricity supplied by IDTE.

Term. This Agreement shall commence as of the date Customer's notice regarding the change of Customer's provider to IDTE is deemed effective by the LDC, and shall continue for 2 months thereafter (the "Initial Term"). Unless otherwise agreed to, upon completion of the Initial Term, this Agreement will continue on a month-to-month basis with a monthly variable rate methodology until either the Customer or IDTE cancels or terminates this Agreement by providing 15 days' notice of termination to the other party. At least 30 days and no more than 90 days prior to the end of the Initial Term, IDTE will notify Customer in writing of the Customer's right to continue, reject or renegotiate this Agreement.

Pricing, Billing, and Termination. Unless otherwise agreed to in writing, the price for all natural gas sold under this Agreement during the Initial Term thereof, shall be the fixed price per CCF/Therm set forth on the Customer Disclosure Statement, plus all applicable taxes. The price for all natural gas sold under this Agreement after the Initial Term thereof, shall, unless otherwise agreed to, be a variable price which each month shall reflect the wholesale cost of natural gas (including commodity, capacity, storage and balancing), transportation to the delivery Point, and other market-related factors, plus all applicable taxes, fees, charges or other assessments and IDTE's costs, expenses and margins. Unless otherwise agreed to in writing, the price for all electricity sold under this Agreement during the Initial Term thereof, shall be the fixed price per kWh set forth on the Customer Disclosure Statement, plus all applicable taxes. The price for all electricity sold under this Agreement after the Initial Term thereof, shall, unless otherwise agreed to, be a variable price which each month shall reflect the cost of electricity obtained from all sources (including energy, capacity, settlement, ancillaries), related transmission and distribution charges and other market-related factors, plus all applicable taxes, fees, charges or other assessments and IDTE's costs, expenses and margins.

If there is a material adverse change in the business or financial condition of Customer (as determined by IDTE at its discretion) or if Customer fails to meet its obligations under this agreement or pay or post any required security deposit, then, in addition to any other remedies that it may have, IDTE may terminate this Agreement upon 15 days' notice to Customer. If Customer terminates this Agreement prior to the end of the Initial Term, or if IDTE terminates this Agreement due to Customer's breach, Customer shall pay IDTE, in addition to any other applicable charges, an early termination fee for each terminated account equal to: \$10.00 for each month remaining in the Initial Term multiplied by the RCE Value (as hereinafter defined) of the account. [The relative size of energy accounts is measured in Residential Customer Equivalents (RCEs). For natural gas, one RCE represents annual consumption of 1,000 therms. For electricity, one RCE represents annual consumption of 10,000 kWh. Using an RCE as the basic unit of measurement, IDTE assigns an "RCE Value" to each customer account based on the usage history for the account and other relevant factors.] Notwithstanding the foregoing, for residential customers and customers solicited via door-to-door sales, the early termination fee shall be \$100 if the remaining term is less than 12 months and \$200 if the remaining term is 12 months or more.

IDTE will invoice Customer monthly for natural gas and/or electricity supplied under this agreement, as measured by the LDC, and Customer will pay each invoice in full within 20 days of the invoice date. Failure to pay on time may result in a late payment charge of 1.5%, or the amount otherwise provided in the LDC's tariff. Customer may receive a single bill for both commodity and delivery costs from either IDTE or the LDC, or each of the LDC and IDTE may invoice Customer separately. Customer payments remitted in response to a consolidated bill shall be pro-rated (when so required) in accordance with procedures adopted by the New York State Department of Public Service (the "DPS"). IDTE may assign and sell Customer accounts receivable to the LDC. In the event of failure to remit payment when due by a residential customer, IDTE may terminate commodity service and seek suspension of distribution service in conformance with the Home Energy Fair Practices Act ("HEFPA"). A \$20 fee will be charged for all returned payments.

Assignment. Customer may not assign its interests in or delegate its obligations under this agreement without the express written consent of IDTE. IDTE may sell, transfer, pledge, or assign the accounts, revenues, or proceeds hereof, in connection with any financing agreement or receivables purchase program, and may assign this Agreement to another energy supplier, energy services company or other entity as authorized by the DPS with 30 days' written notice to Customer.

This information may be used by IDTE to determine whether it will commence and/or continue to provide energy supply service to Customer and will not be disclosed to a third party unless required by law. Customer's execution of this Agreement shall constitute authorization or the release of this information to IDTE. This authorization will remain in effect until this Agreement is terminated by Customer or IDTE. Customer is liable for all IDTE charges after rescission, cancellation or termination until Customer returns to the LDC in accordance with its rules or goes to another supplier. A final bill will be rendered within twenty (20) days after the final scheduled meter reading or if access is unavailable, an estimate of consumption will be used in the final bill, which will be trued up subsequent to the final meter reading.

Force Majeure Events shall include acts of God, fire, flood, storm, terrorism, war, civil disturbance, acts of any governmental authority, accidents, strikes, labor disputes or problems, required maintenance work, inability to access the local distribution utility system, curtailment by the LDC of IDTE's transportation capacity, the LDC's appropriation of natural gas, non-performance by the LDC (including, but not limited to, a facility outage on its gas distribution lines or electric facilities), or any other cause beyond IDTE's control.

12. Liability. The remedy in any claim or suit by Customer against IDTE will be solely limited to direct actual damages (which will not exceed the amount of Customer's single largest monthly invoice amount in the immediately preceding 12 months). All other remedies at law or in equity are hereby waived. In no event will either IDTE or Customer be liable for consequential, incidental, indirect, special or punitive damages. These limitations apply without regard to the cause of any liability or damages. There are no third-party beneficiaries to this Agreement.

13. Indemnification. Customer is responsible for and will indemnify IDTE against any and all liabilities resulting from Customer's failure to fully comply with this Agreement, and from any damage or injury caused by the electricity and/or natural gas after its delivery to the Sales Point(s).

14. Severability. Should any part of this Agreement be declared invalid for any reason, such decision shall not in any manner affect the validity of the remaining portion of this Agreement, which shall remain in full force and effect as if the part determined to be invalid had not been contained herein at the time of the execution of this Agreement.
